

## LMC-J-HT-Series

for distance measurement  
on hot surfaces

- **Sensor designed as modular system**
- **Class 2 and 3 R Laser for distance measuring up to 1200°C / 1400°C material temperature in distance range up to 25 m**
- **Measuring distances in millimeter accuracy**
- **Measurement output rate up to 100Hz**
- **Different interfaces available like 4..... 20mA, RS232/422, ProfiBus, Ethernet TCP/IP, WLAN, digital out**
- **Dust and waterproof according to IP 66**
- **Compact housing**
- **Air-and water cooling for hot area condition up to 100°C**
